Part 4e

Power Park Module data:
Electricity Storage plant data
(please complete a separate sheet for each different Generating Unit)

Name(s) / identifiers of Generating Unit(s)

Generating Unit Voltage Control (to be agreed with the DNO) (see Note 10)

If operating in Power Factor control mode,
preferred Power Factor

If operating in voltage control mode, voltage set point   V

If operating in reactive power control mode, reactive power set point   MVAr

Generating Unit Performance Chart attached
If yes, please insert the file name of the attachment here   ( ) Yes   ( ) No

HV Connected Type A, Type B, Type C and Type D Power Generating Module frequency and excitation (see Note 10)

Governor and prime mover model attached (see Note 12)   ( ) Yes   ( ) No
If yes, please insert the file name of the attachment here

Total effective inertia constant   MWsec/ MVA

AVR / excitation model attached
If yes, please insert the file name of the attachment here   ( ) Yes   ( ) No

Commercial Service (applicable to Electricity Storage Plant for each commercial service / mode of operation)

Name of the commercial service being provided and name of the company the service is being provided to (eg NGESO)

If the commercial service is being provided via a third party, the contact details for the third party service operator (eg an aggregator)

Is this a service which involves co-ordinated response with other Electricity Storage plant either on the Distribution Network, Transmission System, Private Network or aggregator?

◯ Yes   ◯ No

If yes please provide further details below
